The Assassin of Carnot Sentenced to Mee Death Upon the Guillotine.

#### GIVES SATISFACTION

The Murderer Brought Into Court Carefully Guarded Looked Pale and aded - His Bravado Evidently orced-Morbid Spectators Pres--Concluding Scenes of the I-Exciting Dispute Between Prisoner and a Soldier Who

LYONS, France, Aug. 3. ASERIO SANTO, the murderer of President Carnot, heard his doom pronounced this morning. He was sentenced to die upon

the guillotine. When the assize court opened this morning, about the same class of audience was present as yesterday. A regiment of soldiers sarrounded the court house, and detachments of infantry and cavalry guarded the approaches. As upon the opening day, a number of gayly dressed women occupied the principal seats in the gallery. Fewer of the general public were admitted

into the body of the room. Caserio, who seemed to have passed a sleepless night, in spite of his forced bravado, looked pale and nervous as he was led into the court room between two detective officers.

The van that brought him from St. Paul prison was guarded by a squad of dragoons in the same manner as yesterday. Ev ry precantion was taken to preserve the peace and prevent anarchistic outrages. Strangers in the city were scrutinized and all known sympathizers with the cause of the Reds were placed under special police espi-

While nobody in Lyons or France, for that matter, anticipated any other verdist than that of death, and that swiftly, none were prepared for so sudden a termination of the trial. Santo himself had not for a moment indulged the hope that he would escape the knife, and had nerved himself to assume a calmosas that his twitching fingers belied. Nevertheless, it is acknowledged that the assassin has brought spectators, and derives immense satisfaction out of the fact that a hundred newspaper scribes are at this moment sending accounts of his trial to the four quarters of the earth.

#### SCENES AT THE TRIAL.

The presiding judge, Breuillac, opened the session at about 9 a. m. and im mediately ordered Caserio to be produced. Leblanc, the soldier who was a fellow prisoner with Caserlo at Marseilles, testified that Caserio told him that he intended to kill President Carnot, probably at Lyons, when the pres-

"That is a lie," interrupted Caserlo excitedly. "I never told you or any one else anything about my plans." When Leblanc's testimony was finished, the public prosecutor reviewed at length the details of the trial and demanded that the jury should not hesitate to do its duty. Santo listened to his speech with a smile of contempt

on his face. M. Dabreuil, counsel for the defense followed with an appeal for the prisoner. He bas d his defense on three points; (1) That there was lunacy in the prisoner's family; (2) his anarchist surroundings; (3) the impossibility of reconciling the assassin's religious life with a premeditated attempt at murder.

#### THE VERDICT RECEIVED.

The jury was out about a quarter of n hour. When the jury returned Caserio was brought in and faced the court for the last time. Judge Breuillac turned to the prisoner for a moment and then, addressing the jury, asked the latter the formal question:
"Is Caserio Santo Geronimo guilty

or not guilty of the crime of assassinating the president of the republic?" There was some confusion as the interpeter translated to the prisoner what he said; but audible over the interpreter's voice was the reply of the foreman of the jury: "Guilty with-out extenuating circumstances." There was silence again as the verdict was

translated to Caserio, who received it with a cynical smile." The presiding judge, as soon as the prisoner was acquainted with the jury's finding, areas and, speaking directly to the assassin, said: The court con-demns Caserio Santo Geronimo to You have three days in which to appeal to the court of cassation."

When the sentence was uttered Caserio exclaimed, "Vive la Revolution

Nothwithstanding the prisoner's defiant attitude, his habitual smile dis-appeared from his face when the sent-

ence was pronounced.

Throughout the city intense satisfaction is expressed over the speedy sentence of the miserable assassin. Reds who might be inclined to com miserate the wretch are following the dictates of prudence and remaining

#### STATE OF TRADE.

The Situation as Revealed in Dunn & Co's. Weekly Review-Outlook More Hopeful.

New York, Aug 3 -R. G. Dun & Co.'s weekly review of trade tomorrow will say: So much business has been deferred during the past year, and merchandise stocks have been so re-duced, that the mere approach of a decision in the tariff question without certainty what it is to be, has this week encouraged large preparation for increased business. In spite of outgoing gold and sinking treasury reserves, small railroad earnings, some injury to crops and increased trouble in the coke regions, the tone and the outlook are more hopeful.

The injury to crops by hot winds and drought, if as great as some report, will affect all interests, but at this season it is never easy to distinguish between local and general damage.

After tariff uncertainties have vanished, it will be recognized that pur-chasers and orders for the coming year himself to regard himself in the light will depend largely upon the crops of a liberator and a martyr. Ha is su-But at present the prospect of a decipremly vain and egregiously egotistical sion in congress, and the common im-Thus he poses before the court and pression that the pending bill may fall sion in congress, and the common imbetween the two houses, has stimulated some activity in textiles.

Recovery in the iron market is hin-

dered by the trouble in the coke region, where many of the new coloren hands have quit and gone back to the south, and the strikers have decided to continue the struggle. The volume of domestic business re-

fircted by exchanges through clearing houses is 22 6 per cent. less than last ear, and 28 8 per cent. less than in 1892 improvemedt however, omnot precede but must follow recovery in manufactures. The railroads earning reported for July are 26 6 per cent. less than last year, and partly because of the sharp decline a year ago, the decrease for the latest week was only 13 1 per ceut. The tonnage east bound from Chicago has nearly recovered its former magnitude.
Gold exports and other discourag-

ing features depressed the average price of stocks 40 cents per share, while legislative rumors belped to lift trust stocks 91 cents per share.

Commercial liabilities thus far reported in failures during July amounted to \$9 016,778, of which \$4,500,220 were of manfuacturing and \$4,231,470 of trading concerns, and the decrease of the month, though great in comparison with last year, is hardly as much as has been expected. The failures this week have been 219 in the United States against 436 last year. and 44 in Canada against 34 last year.

### ALL DESERTERS ARE BEHEADED

Shorn of Their Pigtails the Faltering Soldiers Are Put to Death Without Ceremony - The Japanese Storm Shan Yong and Vanquish the Celestials Who Outnumber the Attacking Party-Li's Enemies Plotting for His Overthrow.

SHANGHAI, Aug. 8. THE action of the emperor in di-vesting Viceroy Li Hung Chang, of the order of the Yellow Jacket has fallen like a thunderbolt here, as it is feared that the incident will lead to his complete overthrow. He is regarded here as the only leader capable of coping with Japan in the inevitable long war. A criis is regarded as imminent.

The emperor has been influenced in his action by members of his family hostile to the viceroy's pro-European policy. It is expected that Sir Robert Hart, the British representative, will assert his authority and support Li Hung Chang.

The soldiers beheaded at Tien Tain for desertion, pleaded in extenuation of their offence hunger and exhaustion. Before they were executed they were stripped of their uniforms and their pig tails were cut off. The example has terrified the army.

Au edict has gone forth that the army will receive double pay hence-forth, during the war with Japan, and a large bonus has been offered to officers competent to navigate the Chinese naval vessels and transports.

JAPS STORM SHAN YONG.

Washington, Aug. 3.—A cablegram was received at the Japanese legation this evening, saying that on July 29 a portion of the Japanese troops staioned at Seoul made an advance upon the Chinese position at Shan Yong, which contained a larger number of soldiers than in the Japanese body, and after a fight which lasted several hours, the Chinese were routed and driven from their stronghold. Many prisoners and amunitions of war were captured, and after the victory, on the morning of July 80, the Japanese troops proceeded to march to Gasan.

The legation has not yet received any news of a fight at the latter place, and bilieves, in view of what has been received about the battle at Shan Yoing, that the reports of the Chinese victory at Ashan or Yashan have been conused with a battle which took place at Gasan. The legation officers here say that the Chinese would have to go the same distance as the Japanese to telegraph the result of such a battle, and they wish to again deny that a victory has been achieved by the former, as news of it would have been

received here. The legation this afternoon received a detailed dispatch from Japan confirming the accounts by the United Press of the sinking of the British transport Kow Sning, and reiterating the assertion that the fight was begun by the firing of a torpedo from the Chinese warship Chin Yuen upon the Japanese cruiser Naniwa Kan.

#### BUFFALO RACES.

The Favorites Have a Very Hard Day-Five Thousand Spectators Witness the Events.

Buffalo, N. Y., Aug. 3.—Over 5,000 people saw some most excellent racing here this afternoon. Favorites had a very had day, and three out of four were beaten. Red Bud and Expressive were nearly equal choices in the open-ing event for 3-year-olds, but the colt the event in straight heats and in the third one cut his mark from 2.17 to

2.154. Billona was a red hot choice in the 2.20 trot, but she was unsteady and made losing breaks in every heat. Ballano forced out Alar in the second heat, but the clip was too warm for her in the third and she fell back beaten at

the upper turn. Bullmont was made favorite in the event for pacers, but Ed. Easton outlasted him.

The greatest interest was centered in the 2.10 trot, and the talent received a hard knock when both Lord Clinton and Ryland T, the original favorites, were knocked out by Pamlice. The track was a trifl, heavy and a strong wind added to the handicap. This just suited Pamlico, and his staying qualities brought him through in fine shape. The summaries:

### SUGAR MEN MAY CAUSE TROUBLE

Four Members of the Conference Announce That the Tariff Deadlock Has Been Broken-It Is Predicted That the President Will Sign the Bill Within Ten Days-The Adjustment Necessary for Public Good-Louislana Senators.

WASHINGTON, Aug. 3. FTER the meeting of the cabinet today four members announced each to a different person that an agreement had been reached by the senate and house conferees on the tariff bill. The basis of agreement was not disclesed, but one of the most distinguished members of the cabinet said to a United Press reporter: "You can announce that the president will sign the tariff bill within ten days." United Press bulletins announcing a

tariff adjustment spread rapidly through the city and caused much excitement. No one of the cabinet officers who spoke of the settlement would divulge the terms, but the inference was strongly conveyed that the senate bill with not very material concessions is the basis of the agreement. The paramount reasons that seem to have brought about an adjustment was stated to be the absolute necessity for the cessation of the period of uncertainty in order that government finance might recuperate, gold exports stop, and the country be given an opportunity to resume business which has almost come to a standstill because of the long drawn out delay.

WHAT THE HOUSE ACCEPTS. From other sources it is learned that the sugar schedule that will be agreed to and which has been accepted by the house conferrees is as follows:

Forty per cent ad valorem on all raw sugar and the same amount on all refined sugar, the duty to be collected, however, on the basis of the eaccharine strength. In addition to this there is one-fifth of a cent a pound and a diseriminating duty against those countries that pay an export bounty on re hand, which had fallen across the rail, fined sugar equivalent to the bounty was also badly mangled. paid. It is understood that the government will also regulate in some way the prices of foreign sugars so as to quotations.

SUGAR MAKERS ARE SOUR. It is said tonight that the Louisiana senators and Messrs. Allen and Kyle, the latter representing the best sugar industry, will not accept the proposed schedule. If this be true, it is not apparent how the Democrats expect to pass the bill. There is no provision in the schedule for the bounty for 1894 and the Louisiana senators have declared that unless this bounty is put in the bill they cannot support it. It is probable that by tomorrow night the situation will have crystalized into something tangible and that the outcome will be known with some degree of definiteness.

#### TWO BURGLARS JAILED.

The Men Who Robbed the Erie and

Wyoming Station at Avoca. About two weeks ago the Erie and Wyoming railroad tool house at Avoca was broken into and all the tools, cluding a small stove, were stolen. The coal and iron police have been quietly working on the case and on Menday secured clues and information as to the culprits. A warrant was seoured at Alderman Davison's office in this city and yesterday William Campbell, of Avoca, was arrested, brought to town and given a hearing. Some of the stolen tools were found on his premises and he pleaded guilty to the charge of burglary. He was then re-manded to jail in default of \$1,000 bail to answer the charge at court.

This morning Detective Martin Crippen, of Olyphant, of the coal and iron police, arrived in town with John Houston, the other burglar, in custody. Houston also lived in Avoca and after his arrest the premises were searched and the stolen stove found hidden under his barn. He was also sent to jail in default of \$1,000 bail for a further hearing—Wilkes Barre News-Dealer, Friday.
